

**RCOphth Annual Congress 2018**

## **The paediatric posterior pole**

**Wednesday 23 May 2018 10.40 – 12.10**

**Chaired by Mr Adam Bates, Consultant Ophthalmologist, Maidstone and Tunbridge Wells NHS Trust**

**Organised by Miss Stephanie West, Southampton General Hospital**

This symposium is aimed at updating general and paediatric ophthalmologists on the latest available treatments and techniques for managing posterior pole conditions in children. Mr Robert Henderson, will provide an overview of the current use of genetic screening and trials relevant to paediatric retinal conditions and Mr CK Patel, will bring us up to date with the latest surgical management of retinal conditions in children. Treatment of retinopathy of prematurity with Anti VegF including different dosing regimen will be discussed by Mr Ayad Shafiq and Mr James Acheson will highlight the latest use of imaging to identify pathology in the paediatric optic nerve.
