

## **RCOphth Annual Congress 2018**

**Thursday 24 May 2018**

### **Glaucoma subspecialty day**

#### **Hall 3**

**Co-Organised and chaired by Miss Winifred Nolan, Moorfields Eye Hospital and Mr Anthony King, University Hospital Nottingham**

The glaucoma subspecialty day will provide all grades of ophthalmologist with updates on topics including the NICE guidelines, new service delivery models, patient related outcomes, alternatives to medical treatment and a pragmatic approach to glaucoma surgery and co-existing cataract. Our international speakers will discuss novel drug delivery systems, optimising surgical outcomes and correlating visual fields with patient perceived change in function. The day will cover new developments in clinical management of glaucoma including monitoring and treatment options.

**09.25 – 09.30          Welcome**

#### **Session 1 – Guidelines and risk stratification**

**09.30 – 09.50          Update on NICE guidelines**

Miss Cecilia Fenerty, Consultant Ophthalmologist, Manchester Royal Eye Hospital

**09.50 – 10.10        Risk stratification in glaucoma – Shaping service redesign**

Miss Maria Papadopoulou, Consultant Ophthalmologist, Moorfields Eye Hospital, London

**10.10 – 10.30        20 years experience of virtual clinics – what I think you need to know**

Mr Simon Longstaff, Consultant Ophthalmologist, Royal Hallamshire Hospital, Sheffield

**10.30 – 10.50        EPIC Norfolk: Big data that changed the delivery of eye care in the UK**

Miss Michelle Chan, Glaucoma fellow, Moorfields Eye Hospital

**10.50 – 11.00**            **Discussion and questions**

**11.00 – 11.30**            **Coffee and Exhibition**

**Session 2 – Clinical and surgical management**

**11.30 – 11.45**            **Normal Tension Glaucoma – What to aim for and how to get there**  
Miss Debbie Kamal, Moorfields Eye Hospital, London

**11.45 – 12.00**            **Measuring outcomes in glaucoma surgery**  
Mr Ali Abbas, Moorfields Eye Hospital, London

**12.00 – 12.15**            **Optimizing outcomes of glaucoma surgery**  
Dr Tina Wong, Singapore National Eye Centre, Singapore

**12.15 – 12.30**            **Complications of glaucoma surgery – tips for management and prevention**  
Mr Jim Kirwan, Queen Alexandra Hospital, Portsmouth

**12.30 – 12.45**            **Cataract surgery in glaucoma patients – Optimizing outcomes**  
Miss Rashmi Mathew, Moorfields Eye Hospital London

**12.45 – 13.00**            **Discussion and questions**

**13.00 – 14.00**            **Lunch**

**Session 3 – Measuring Change in Glaucoma**

**14.00 – 14.20**            **The patient perspective – measuring clinically significant change in visual function**  
Professor Christoph Hirneiss, Ludwig Maximilian University of Munich

**14.20 – 14.40**            **Measuring change in advanced glaucoma**  
Professor Paul Artes, Plymouth University

**14.40 – 15.00**            **PROMS for glaucoma**  
Professor Anthony King, Nottingham University Hospital

**15.00 – 15.30**            **Tea and Exhibition**

**Session 4 – Future innovation for overcoming adherence issues**

**15.30 – 15.50**            **A perspective on adherence**  
Dr Heidi Cate, Norfolk and Norwich University Hospitals NHS Foundation Trust

**15.50 – 16.10**            **Novel delivery systems for glaucoma medications**  
Professor Tina Wong, Singapore National Eye Centre, Singapore

**16.10 – 16.30**

**Laser instead of drops**

Mr Sheng Lim – St Thomas' Hospital, London

**16.30 – 16.50**

**MIGS instead of drops**

Mr Imran Masood – Birmingham and Midland Eye Centre

**16.50 – 17.00**

**Discussion and questions**
