

RCOphth Annual Congress 2018

Thursday 24 May 2018

Oculoplastics subspecialty day

Hall 1C

Co-Organised and chaired by Ms Lucy Clarke, Consultant Ophthalmic and Oculoplastic Surgeon, Newcastle Royal Infirmary, Newcastle and Mr Austin McCormick, Consultant Ophthalmic and Oculoplastic Surgeon, Aintree University Hospital, Liverpool

This oculoplastic subspecialty day is for all grades of ophthalmologist. As well as talks on conditions such as blepharitis offering research based treatment strategies for this very common condition we will address rarer yet equally important conditions such as orbital infection and inflammation. The afternoon will consist of a practical session of videos showing how to perform common oculoplastic procedures such as ptosis, ectropion and entropion surgery. Lastly, we will discuss interesting cases and open up these to discussion with the audience. A free oculoplastic text book will be given to all delegates thanks to sponsorship by Thea Pharmaceuticals.

09.00 – 10.30 Oculoplastics
