

RCOphth Annual Congress 2018

Thursday 24 May 2018

Paediatric subspecialty day

Hall 11

Co-Organised and chaired by Mr Manoj Parulekar, Birmingham Children's Hospital and Professor Christopher Hammond, St Thomas's Hospital, London

The programme is designed to provide updates and generate discussion among the faculty and attendees on current and common conditions in paediatric eye clinics and theatres. It will cover strabismus as well as anterior and posterior segment eye disease, oculoplastics, genetics and interesting case presentations. The content of the sessions will be relevant to specialists, as well as general ophthalmologists, with discussion on surgical techniques as needed. There is adequate time for discussion, and to share experience, and we look forward to seeing you there.
