The Retina sub-specialty day has become one of the highlights of the Annual Congress. This year there are presentations from national and international experts on a range of topics including the LEAVO study, diagnosis and management of central serous retinopathy, diabetic macular oedema, OCT angiography in retinal vascular disease and brolucizumab for neovascular AMD. The presentations will contain a mixture of current evidence and clinical pearls, suitable for everyone with an interest in retinal disease. Professor Steve Charles and Professor Adrian Koh will give keynote presentations on VR surgery and the management of PCV. There are 2 symposia on macular holes and the management of sub-macular haemorrhage.

09.05 – 09.30 LEAVO Study
Mr Phillip Hykin, Moorfields Eye Hospital

09.30 – 10.00 Real world outcomes of DMO treatment
Professor Laurent Kodjikian, Lyon Hospital, France

10.00 – 10.30 Central Serous Retinopathy
Professor Camiel Boon, Leiden University Medical Center, The Netherlands

10.30 – 11.00 DMO and cataract surgery
Mr Raj Mukherjee, St James’s University Hospital, Leeds

11.00 – 11.30 Tea and coffee

11.30 – 12.00 Keynote presentation - VR surgery
Mr Steve Charles, The Charles Retina Institute, Tennessee, USA
12.00 – 13.00 Sub-macular haemorrhage symposium

12.00 – 12.15 Epidemiology of sub-macular haemorrhage
Dr Gerard McGowan, Gartnavel General Hospital, Glasgow

12.15 – 12.30 Anti VEGF monotherapy for sub-macular haemorrhage
Mr Mike Gavin, Gartnavel General Hospital, Glasgow

12.30 – 12.45 Intra-vitreal tPA and gas for sub-macular haemorrhage
Dr Mandeep Singh Bindra, Stoke Mandeville Hospital

12.45 – 13.00 Sub-retinal tPA for sub-macular haemorrhage
Mr David Steel, Sunderland Eye Infirmary

13.00 – 14.00 Lunch

14.00 – 14.30 Keynote presentation – PCV update
Professor Adrian Koh, Singapore

14.30 – 15.00 Brolucizumab in NvAMD
Mr Robin Hamilton, Moorfields Eye Hospital

15.00 – 15.30 OCT-angiography in retinal vascular disease
Mr Konstantinos Balaskas, Moorfields Eye Hospital

15.30 – 16.00 Tea and coffee

16.00 – 17.00 Macular hole symposium

16.00 – 16.15 Does face down posturing affect macular hole closure?
Professor James Bainbridge, Moorfields Eye Hospital

16.15 – 16.30 Does ethnicity affect macular hole closure?
Miss Louisa Wickham, Moorfields Eye Hospital

16.30 – 16.45 Macular holes – the BEAVRS/ Euretina database
Dr David Yorston, Gartnavel General Hospital, Glasgow

16.45 – 16.50 Questions
