

Wednesday 20 May 16.00 - 17.30 More than Meets the Bag Everything you didn't know about the Zonule

An often overlooked but absolutely critical structure. This unique seminar hosted by scientists, geneticists, clinicians and researchers will delve into the physiology, genetics, functional assessment of and clinical and surgical implications of the ciliary zonule and its pathology. A must for anyone working in and interested in lens function, surgery, and accommodation.

16.00 – 16.05 Introductions: Aman Chandra

16.05 – 16.25 Biomechanics of Ciliary zonule
Professor Barbara Pierscionek

16.25 – 16.45 Genetic implications of ciliary zonules and their pathology
Dr Jose Aragon Martin

16.45 – 17.05 Epidemiology of zonulopathy and clinical management
Mr Aman Chandra

17.05 – 17.15 Assessment of ciliary zonules
Dr Chim Chipeta

17.15 – 17.30 Conclusions
